

Alex Morgan.

Full-Stack Engineer

London, UK · alex@example.com

Summary

I'm Alex, a software engineer who cares as much about how a product feels as how it works. For the past eight years, I've helped small teams turn complicated problems into useful, dependable software.

Experience

2023 — PRESENT

Senior Software Engineer

Forma

Building the tools that help independent businesses thrive. Leading full-stack delivery, from early product decisions to reliable services.

2020 — 2023

Software Engineer

Layers

Helped a small team grow a collaborative workspace. Built core product features and simplified the systems behind them.

2018 — 2020

Software Engineer

Studio North

Turned ambitious briefs into accessible, fast web applications for early-stage teams.

Technical profile

Frontend

React, Next.js, TypeScript, Tailwind CSS

Data

PostgreSQL, Redis, Prisma

Backend

Node.js, Python, REST, GraphQL

Infrastructure

AWS, Docker, GitHub Actions, Terraform

Education

2014 — 2018

BSc Computer Science

University of Bristol
